Attentive Preventative Care Management Program

Now more than ever, people are looking for ways to lead healthier lifestyles, and with good reason. The nation's poor health reaches across all aspects of our community:

non-institutionalized Americans have chronic health conditions

corporate profits are consumed by health care costs

health care costs are attributable to Americans with chronic conditions

cost of the seven most common health conditions associated with economic losses, including lost time at work*

How We Help

Our team is dedicated to helping communities across the country improve the health and well-being of their employees through a voluntary and affordable health and wellness program. Our deep understanding of local governments and employee benefit programs are the key to the service excellence we provide to our clients.

HOW THE PLAN WORKS FOR EMPLOYEES

The Program brings a suite of value-added wellness products to your employees through a user-friendly mobile app and a 24/7/365 call center. In addition, the Program offers your employees a cafeteria menu of insurance products that are provided by Combined Insurance, a Chubb company. Here's an overview of how the program works:

Telemedicine Platform

Unlimited 24/7/365 access to doctors and nurses online or by phone with little to no wait times. Plus, talk to an emergency room physician from anywhere: at home, at work, or while traveling.

Health Risk Profile

Online Personal Health Risk Assessment (HRA) and Online Road to Preventative Care that identifies both weaknesses and strengths and provides solutions to improve lifestyle and health.

Health Coach Review

Personal Health Coaching by a certified practitioner will provide health coaching and guidance, goal setting, and modification for members to reach their co-created health goals to help manage lifestyle and prevent and manage disease.

Personal Health Dashboard

Easy-to-use dashboard to access personal health records and access to valuable preventative care programs.

Affordability

Participating employees receive access to the wellness products and can select optional additional insurance products offered by Combined Insurance with no out-of-pocket costs. And, you the employer, can benefit from immediate and ongoing payroll tax savings.
